UX & Design Practice: UI/UX Design, User Research, Wireframing, Prototyping, User Flows, A/B Testing

Experience:

DeGirum | degirum.com

San Francisco Bay Area, USA

Software Engineer (UI) · Full-time

03/2025 - Present

- Joined mid-development; audited and redesigned UI/UX from the ground up — from Figma prototypes to production-ready components (Vue.js, TypeScript, Nuxt, Tailwind CSS)
- Built high-performance data visualizations for monitoring large fleets of edge IoT devices (Apache ECharts, D3.js, Canvas)
- Created custom UI components for complex technical workflows; contributed to backend integration (Go)

Halo AI | haloai.app

San Francisco Bay Area, USA

UX/UI Designer · Contract

11/2023 - 05/2024

- Sole designer on an early-stage AI startup; defined the full product UX from scratch in close collaboration with founders — business logic, user flows, and interaction design
- Designed end-to-end: onboarding, influencer-brand collaboration mechanics, and core product screens — from wireframes to interactive prototypes (Figma, ProtoPie, Framer)
- Built a complete UI component library ensuring visual consistency across the product

Sber | sberbank.com

Moscow, Russia

Senior UX/UI Designer · Full-time

11/2021 - 09/2022

- Designed responsive interfaces for multiple banking products and internal systems; conducted user research and presented findings with actionable solutions
- Maintained corporate UI Kit; mentored junior designers; contributed to both external and internal design systems

Alpari | alpari.com

Moscow, Russia

UI Engineer → Senior UI Engineer · Full-time

07/2013 – 02/2017 | 12/2019 - 11/2021

- Developed web UIs, dashboards, and internal monitoring tools for marketing and operational metrics
- Built and maintained UI component libraries; led UI architecture decisions for internal tooling; mentored junior team members

ICIE / MIPT | inevm.ru / mipt.ru

Moscow, Russia

Software Engineer · Full-time + Part-time

03/2017 - 11/2019

- Full-stack development across backend services, data pipelines, and frontend UI (Symfony → Laravel, PHP, Python, PostgreSQL, JavaScript)
- Built data visualization tools — charts, graphs, dashboards — using D3.js, JavaScript Canvas, and SVG for academic research teams (MIPT)

Education:

Moscow State University of Instrument Engineering and Computer Science

06/2010

Bachelor of Computer Science | Computers, complex systems and networks
